Whether for a night out, Sunday brunch or just running errands these leggings are perfect for almost any occasion. With the weather turning cooler leggings are the perfect way to keep warm and stylish.

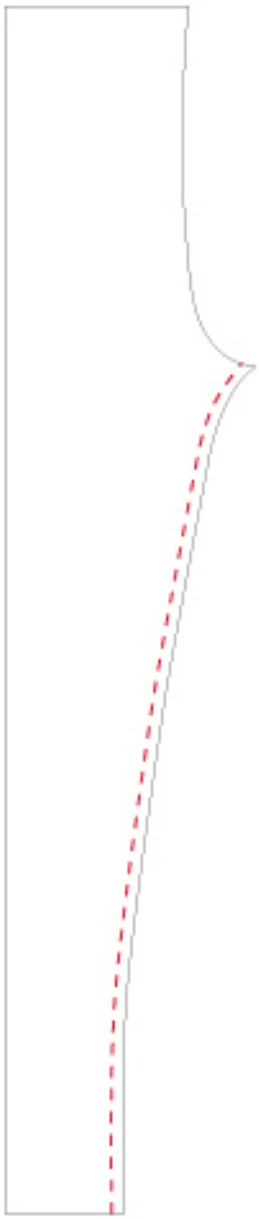
Materials

Elastic, Lycra, Spandex etc.

Step 1

Chose the right size for your pattern and cut the leg pattern x2

Step 2



Pin and sew each leg closed from the ankle to the crutch, right sides facing. Finish with serger.

Step 3

Serge the hem. Using the stitch in your sewing machine for stretchy fabrics or jersey, make a double stitch on the hem. Slightly stretch the fabric when sewing the bottom to make sure you have room for stretching the ankle when wearing.

Step 4

Turn one of the legs inside out. Insert one leg into the other with the right sides facing. Align the center back and front seams. Sew and serge.

Step 5

Measure and cut elastic to match your waist size (we used 7/8 inches wide elastic). Serge the edge. Fold the waistline around the elastic and sew making sure you are not catching the elastic and stretching the fabric as you saw.
